## Men's Overcoats

Here's one of our **\$30.00** models

You will note it has a belted back, and a very nice broad collar. In fact all the men's overcoats this year are shown with wider collars than usual. This coat comes in quite a heavy weight and at the price should be a great seller this season.

**\$30.00**

## "Fashion-Craft"

Prices on all "Fashion-Craft" Suits have been reduced **\$3.00** since the Fall price list was printed. This applies to all made-to-measure, as well as stock suits.

## MEN'S FELT HATS

We've just received such a nice line of Christy's Felt Hats for Men. They come in a nice Grey, and are the same quality you used to pay **\$7.00** for; now you can get them for ..... **\$5.00**

## If every child wore Hurlbut Shoes

There would be no deformed feet in later life

**BECAUSE** Hurlbut Shoes are scientifically shaped to nature's demands.

They are not only roomy to give every toe its right to grow, but they support instep, arch and heel, and develop the growing foot.

Hurlbut's are comfortable—Hurlbut's are flexible. Sole and heel sewn to the up.

pers by the patent welt makes them more flexible. The shoe gives to the bend of the foot.

No tacks—no ridges—cushion sole from heel to toe, prevents jar and jolt.

This all adds to the length of life.

There isn't any question that Hurlbut's are the highest quality children's shoes in Canada to-day.

**HURLBUT**  
CUSHION-SOLE  
Shoes for Children

## Warm Winter Coats at Popular Prices

A smart coat is a necessity that may be purchased without great outlay this season. Our assortment is gratifyingly large, and includes the numerous new styles developed from worthy materials in all desirable colors. All are market at reasonable prices.

A warm coat of Wool Cheviot lined in the body and sleeves with twill mercerized saaten and trimmed on the collar, cuffs, pockets and back with silk twist stitching and fancy buttons. This pretty coat comes in a Brown shade and is priced at ..... **\$30.00**

## Interesting Display of Knit Underwear

With the first days of Autumn many women change to knit underwear for the comfortable enjoyment they find in its added warmth.

In Cotton, Wool, Silk and Wool, and Cotton and Wool mixtures, a wider variety of styles than are ordinarily featured in knit underwear will be noted by women who choose from our new selections. They will be greatly pleased to note a very marked reduction in the prices this season as compared with last. In many cases it amounts to quite one-third off, while the quality is even better.

## Silk Heather Hose

The popular hose for this season comes in shades of Light Grey, Steele Grey and Bronze.

Specially priced, per pair **\$1.95**

## Venus Silk Hose

A special lot just in—Black and Nigger Brown with rib tops, at per pair ..... **\$1.95**

## It's A Season of Blouses

One need not delve into fashion books to know how important blouses are in the world of fashion this season. And as we have anticipated the future styles, we are fully prepared with a showing that will do your eyes good to see.

**Taffeta Overwaists** made in the slip-over style with tie-back, trimmed with colored pipings, ruchings and fancy beads.

Special price, each ..... **\$6.50**

**New Tailored Waists of Heavy Quality Crepe de Chene** in Nigger, Flesh, Navy, Grey and Coral, with pin-tucked vest and convertible collar. Priced at, each ..... **\$9.50**

**Habutai Silk Tailored Waists** trimmed with tucks and pearl buttons. Price, each ..... **\$8.00**

**Flesh Crepe de Chene Waist** with Peter Pan collar, long sleeves, trimmed with black hemstitching and tucked vest. Each .... **\$10.00**

## Underwear for Men

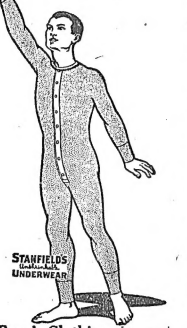

In Men's Union Suits we are showing six lines of Stanfield's goods and three of other makers. Prices in men's sizes run from ..... **\$2.75** to **\$10.00**

Boy's sizes from ..... **\$1.50** to **\$2.50**

## Boys Suits

Our stock of Boys' Clothing is not large by any means, but every suit on our racks is marked at a "sale" figure. It is our intention to sell the racks bare this season in anticipation of our next buying, and we have not only sacrificed our profit, but also a portion of the laid down cost. We invite inspection.

## LIBERALS HAVE NOT SELECTED A CANDIDATE

Friday's Convention at Lacombe Tenders Nomination to Dr. Clark, Which He Declines. Gathering Evolves With Interesting Incidents.

The Liberal Convention at Lacombe on Friday did not succeed in nominating a candidate. The convention adjourned to meet at the call of the executive, when another effort may be made to nominate a candidate. The impression however may be inferred that there is not a great deal of enthusiasm to select a candidate, and the aspirants for the honor are few and far between.

The Convention was replete with interesting incidents. Frequently bordering on comedy. Dr. Clark was not in attendance at the gathering, yet the discussion of his position really occupied the centre of the stage. In fact the convention went to the length of offering him the nomination—not the unanimous nomination, but a nomination, nevertheless. The President and Secretary got into communication with the Doctor over the long distance telephone, but he adhered strictly to the very definite announcement that he had made to the Herald the previous day, and declined to accept any nomination in this election.

A. D. McKenzie, of Penhold, remained as the only man in sight that seemed to want the nomination, and it was clearly apparent that the convention didn't want him, so the matter was allowed to rest at that. True, Mr. McKenzie received some 27 votes when a ballot was taken as between Dr. Clark and McKenzie, but rumor has it that the majority of the McKenzie ballots were cast because the delegates were anti-Clark rather than that they were pro-McKenzie. Rumor has it that A. D. McKenzie had bolted a Liberal convention on a previous occasion, and had been disciplined for his actions. In any case he did not seem to be persona grata with the late convention.

The convention was called to order by R. M. Gibson, President of the Federal Association. The devotional exercises were dispensed with. If the good example of the recent U. P. A. convention in this regard had been adhered to it might have had some effect on the later developments of the afternoon.

After a few introductory remarks by the President, the convention committee were named. Resolutions committee: J. J. Gaetz, Red Deer; Hobberlin, Innisfail; Simpson, Oliver; Buchanan, Stettler; McKerscher, Oids. The credential committee were: A. D. McKenzie, Penhold; Sharpe, Oliver; Berry, Red Deer.

Hon. J. R. Boyle was called upon to address the convention, and spoke glowing terms of the prospects of the Liberal party sweeping the country in the coming election. The Liberals would have not merely the biggest group in the next house, but they would probably have a clear majority over all comers. He thought there might be a government supporter elected in East Calgary, but inclined

to the opinion that East Calgary would be the only constituency in Alberta that would be so reckless. The Liberals on the other hand would select five or six of the 12 members to represent Alberta at Ottawa.

Dr. Boyle thought the party should not feel down in the dumps too badly over the recent provincial election. The Liberal government in Alberta had been in office for sixteen years, and he did not think they could have picked a better time to retire if they had tried. He predicted that it would not be long till the Liberal government would be returned to power in Alberta.

Mr. Prudden, ex M.L.A. for Stettler, was the next speaker. He stated that he had hardly got the stars all wiped out of his eyes yet. The situation that he was in now was a vicious, undemocratic, dangerous plague that threatened the very foundations of our organized society. The country must be rid of the menace of group government.

W. F. Puffer also spoke. He referred to the fact that he had been defeated three times in recent years. He also considered the agitation for group government as class selfishness. He picked a better time to retire if they had tried. He predicted that it would not be long till the Liberal government would be returned to power in Alberta.

Magistrate H. P. Lawrence was also called to the platform, and made a brief, concise speech. He said "The situation narrows itself down to the one point of whether we believe in group government or otherwise. If you don't believe in it, then it is necessary to nominate the candidate who is most likely to effectively oppose it, and I need say nothing further."

**RESOLUTIONS**  
 The report of the Credentials committee was a motion that all those who were opposed to the Meighen government, as well as those who were opposed to group government, should be allowed to vote in the convention.

There was only one resolution presented by the Resolutions committee. After a lengthy preamble, recalling many of the traditions of the Liberal party and setting forth the principles for which it purported to stand, the resolution proclaimed:

1. The support of the convention to the Canadian Liberal party.  
 2. Its adherence to the platform adopted at the Ottawa Convention.  
 3. Its allegiance to the Liberal leader, W. L. McKenzie King.

**NOMINATIONS**  
 The names placed in nomination by the delegates included the following: Dr. M. Clark, Hon. Chas. Stewart, Hon. Duncan Marshall, A. D. McKenzie, Penhold; Jas. Walters, Oliver; Mr. Sharp, Stettler; Mr. Prudden, Stettler; W. F. Puffer, Lacombe; Mr. Barret, Eskine; Mr. Chisbolsa, Lacombe; Mr. Willis, Stettler; Mr. Don-

ley, Stettler; F. B. Allison, Oliver. All the nominees present at the convention withdrew with the exception of A. D. McKenzie. Hon. J. R. Boyle informed the convention that it would be useless to depend on Hon. Duncan Marshall as he would probably be placed in nomination for East Calgary. He also advised against the possibility of getting Hon. Chas. Stewart to accept the nomination. The ex-Premier had a strong support among the delegates, but a resolution was later passed to the effect that his name be not put before the convention out of respect for his position as leader of the opposition, and the imperative need of retaining his services in the Alberta Legislature.

A good deal of discussion, it was decided to take a vote of the convention on the two names that remained in nomination—Dr. Michael Clark and A. D. McKenzie, despite the fact that the convention had no intimation from Dr. Clark that he would accept the nomination if it were tendered to him. The vote resulted in Dr. Clark getting 62 votes and Mr. McKenzie getting 27. Mr. McKenzie then positively refused to make the nomination, and the convention would do so for any other man except Dr. Clark, but vowed vengeance on the Doctor for supporting the Military Service Act and the Wartime Election Act.

J. W. Broughton referred to Dr. Clark as a "political chameleon," who had jumped around from one party to another. He said that he would support him. One or two others also spoke in a similar vein. Stettler said that it was impossible for him to support the nomination for the Doctor, the President and Secretary telephoned to the Doctor as related above.

In reporting the convention with Dr. Clark, the President said that the Doctor declared that "his announcement to the papers was final—he would not accept any candidature, although his sympathies and support in this election were with the Liberals. The offer of the nomination had come as a surprise to him, and he thanked the convention for the same."

The convention moved a resolution thanking the Doctor for his sympathy, and adjourned to his call of the executive.

**All of a Shiver!**  
 It's about the earliest symptom of a cold or a chill. Be wise and take Peps with you delay—*it's the trouble in the bud.* Otherwise you'll have the usual bores, raw throat, the dry tickling cough, the sneezing fits and watery eyes. This ancient Peps medicine delivers a quick counter-attack. Dissolve one or two Peps in the mouth. These give off powerful infection-killing rays which are breathed directly into the throat and bronchial tubes, where the trouble is. This ancient Peps medicine soothes and heals the delicate membrane. It speedsily clears the breathing passages, overcomes soreness and irritation and prevents all danger of the trouble finding its way down into the chest and lungs. Where the cold has already got a hold, Peps will be found equally effective. Also for colds, catarrh, grippe, bronchitis and all chest weakness. Free from opium and all nerve-weakening drugs—safe for children. 50c. all chemists and dealers.

#### SPEAKING OF NEWSPAPERS

"Agricola," writing to the Advocate, has undertaken the role of moral critic of the press. Yet he seems to lack the small amount of courage that is necessary to sign his own name to his production. If our memory serves us right, Agricola is the Latin word corresponding to our word farmer. This new moralist does not even take the trouble to explain whether he is a genuine farmer or whether he seeks to qualify because of his ability to farm. Farmer. Needless to say, if it should transpire that he is not a farmer at all, his remarks about honesty would be rather ludicrous.

The Advocate had attained quite an enviable reputation for refraining from the publication of anonymous letters till, under the evident intoxication of literary frenzy administered by the uplift man, that great moral weekly has been tempted to forsake the high plane of journalism to which it had aspired. How have the mighty fallen!

The News is mildly rebuffed for making considerable reference to the Dr. Clark break with Leader Crenner. We will be consistent, and whatever "Agricola" shows a fraction of the worth as a statesman that Dr. Clark has proven during the years he has been a member of the Canadian Parliament, we will be delighted to give "Agricola" views equal prominence. The News cannot say what may be the case with other papers, we have been too busy minding our own business to ask them, but as far as this paper is concerned, it is not under the domination of any group or interest, and will take whatever stand it believes to be right. Canada is bigger than any party or group; we refuse to put in the mire of class interest.

"Agricola's" admiration for one of our papers, and his wholesale condemnation of the rest, reminds us of the Quaker who confided his wife one evening, something after this fashion: "I have come to the conclusion that all the world is queer except these me and me, and sometimes I have a suspicion that there's a bit queer, too." Still the world goes on its way, regardless of the would-be censor.

#### CIVIC RESPONSIBILITY

The necessity of paying taxes is inseparable from the system of private ownership of real property, or real estate. It has frequently been argued that all real property should belong to the state and that private interest should be available on a rental basis only, dependent upon the proper discharge of the state requirements. The actual working out of the scheme is one that would lead into various complications at its inception.

Whatever views one might hold regarding the feasibility of the scheme referred to, everyone must concede that the private possession of property is a privilege given by the state, with the understanding that the individual owner will regard that ownership as a special concession, given with the understanding that he will discharge the requirements of organized society by providing the revenues that are necessary to maintain the services that the public demand.

The ownership of real property is a trust given to the individual by the state. It is a gift from the state in the first instance; the right to succession of ownership must be proven to the state's satisfaction. The state lays claim to an interest in the proceeds of transfer under certain circumstances and reserves the right to confiscate the property to itself if the necessary conditions are not complied with.

Municipalities, of which the City of Red Deer is a very fair sample, today face serious problems which are the outcome of a popular practice of ignoring the civic responsibility which the right of private ownership of property implies. On the one hand, there is the man who seems to im-

#### law of supply and demand.

As an illustration of the high cost of living is still, to a large extent, the cost of high living. There is no disputing the fact that the luxuries of a very few years ago are regarded as the ordinary necessities today. It will be pleasant if everyone will be able to continue to maintain the standard of living that they have set for themselves in recent years. But it will be contrary to the history of the past, if such is the case.

Dr. Crumey pointed out in a recent address that there are three generations from shirt-sleeves to shirt-sleeves all through history. Extravagance invariably leads to poverty. Hard work leads to prosperity, and prosperity leads to extravagance. Statistics show that some of the commodities that fell too low are now rising in price again. If the 1921 dollar is worth 100 cents, the 1913 dollar is worth 153 cents in purchasing power. Yet the 1921 dollar will buy more coffee, hides, cattle and corn than the 1913 dollar would.

In the outcome it will matter not at all whether coffee, hides, cattle and corn come up, or the other commodities come down, but their coming up will be much less painful in the process of adjustment than the coming down. The level of prices, costs and wages will be reached sooner or later.

#### THE NEW CABINET

There can be only one opinion regarding the re-constitution which Premier Meighen has effected in his cabinet. The strength of the Government has been very materially increased thereby, and the inclusion of two such strong Westerners as H. H. Stevens of Vancouver, and R. B. Bennett of Calgary, will give great satisfaction to this part of the Dominion. Other notable additions to the fighting force of the administration, which will have a marked effect on the results of the campaign are Dr. Edwards, of Prince Edward Island, and Mr. J. G. Maclean. The former, it may be noted in passing, stands high in Orange circles, while the latter is a representative of the Irish Catholic element, and a man held in high respect by all classes. The new cabinet will be one of more than average ability, and the Prime Minister is to be congratulated upon drawing around him such a fine aggregation of Canadian statesmanship.

#### WHO SHALL I VOTE FOR?

Canadian Finance is an independent, non-political journal, but it is a supporter of one political party. It cannot be confined within the limits of any one political creed or platform, many "Canadians" are of the opinion that the choice we would support the man who places his country's welfare before his party's interests, which he belongs, in preference to the man who places his party before anything else. An honest, well-balanced Canadian, who is a Canadian first and a politician afterward, will not do much harm to the country, whether he belongs to the Liberal, Conservative, Labor, or Farmer party, and it is certain that such a man would do much good.

In the forthcoming Federal elections we cannot give too much attention to this question of measuring the capacity of such candidates as a man with principles which should be possessed by all Canadians. A man who does not measure up to the highest standards as a citizen, is not fit to represent any section of the Canadian people at Ottawa. Surely

#### we have had enough of the self-seeking political politician whose breath of vision extends no farther than his own personal interests.

There has been no plainer indication of our lack of interest in public affairs in the past than the manner in which we allowed individuals to nominate themselves to represent us in our legislative bodies. It has been truly said that America is the outstanding example of autocratic democracy—a seemingly contradictory statement, and yet expressive of the actual state of affairs, for our friends over the border have a democracy managed by machine politicians, and we have the same record behind us.

At every election we hear the same old story: "The clique is running this thing!" There is always a small group of individuals known as the "clique" who take a prominent part in elections, and the general public is to blame if their actions are not supported by the rank and file. It is to be successful. If the people will get out and take an active part in our elections there will be no need for "cliques" or "slates" but until they do, these cliques and slates will stay with us.

#### GROUP SYSTEM IS A FAILURE, SAYS BORDEN

At Best It Is but a Clumsy Way To Handle the Business of a Nation.

Toronto, Oct. 8.—Saying that he was speaking in an entirely detached manner and not as a member of any political party, Sir Robert Borden last night emphatically opposed the system of group government, which he seemed, he said, to be gaining vogue in various parts of the world. "Group government," he declared, would not make for true representation of the people. So far as party government is concerned, Sir Robert declared that it was at best a clumsy arrangement of managing a nation's business. One glowing illustration of the absolute failure of the group government is to be found in Poland, he said, where there are now 13 groups in the government, all of which are open to party intrigues, ready to change their votes for little triumphs gained by their own interests and, therefore, working in the interests of certain sections of the community, rather than for the good of the whole country.

The same results, Sir Robert inferred, might apply should Canada get group government, for should the agrarian party come into power, it might mean that they would be prepared to legislate in the interests of the agrarian party rather than for the good of Canada as a whole.

So far as the failure was concerned, Sir Robert felt that it was premature to say that democracy has been proven a failure, for democracy as he put it, was a great and worthy experiment, and even should it fail, it had been well worth while because of what it had already accomplished.

While any form of group government was bound to have its troubles, these difficulties would be accentuated when the divisions of groups were made according to occupation or race.

#### FALL RYE DISTRIBUTED NETS ABOUT 20,000 BUSHEL

Total Value of Grain Given Out to 474 Applicants, \$225,010.

Edmonton, October 7.—Fall rye has been supplied to farmers in Southern Alberta by the department of agriculture to the extent of 19,846 bushels. The distribution of supplies has been concluded, and the sum total of the rye carried over brought to the department's six field agents shows that there were 474 applicants, who were given out a total of 19,846 bushels. The total value of the grain thus given out is \$225,010, and the average price per bushel was \$11.08. More

#### than half the total quantity was supplied to farmers in the Medicine Hat district.

Good soil conditions are reported in the greater part of the dry belt, and the late September rains having provided a degree of moisture that will make excellent growing for the young rye.

#### BURGLARY FRUSTRATED BY LACOMBE POLICE

Lacombe, October 6.—The second chapter of the burglary wave was enacted in Lacombe early Wednesday morning, when the police frustrated an attempt to gain entrance to the McDermid Drug Co. While Police-men Morris and J. Burrows were making their rounds at about one o'clock on Wednesday morning, they rounded the corner of Parsons Brothers Jewelry shop, and were about to enter the alley leading to the rear door of the shop on Barrett avenue

when two men rushed past them. The order to stop was ignored, and the policemen first at the prowers, who hastened down the alley and into a waiting automobile and sped at a fast rate out of town. After giving up the chase after the suspects, the police went back to the alley and found the stern door of the drug store broken open and work commenced on the inner door. The thieves made their entrance into Dave Hays' store on the previous night by cutting out a pane of the rear door and unlocking it by turning the key that had been left in the lock. The thieves evidently saw no need for haste, as it would have taken half an hour at least for them to make away with the quantity of merchandise they did.

You will want a bottle of the wonderful Tanlac remedy. You can get it from Gieseler-Cornett Drug & Book Co.

#### Old France in Canada

(1) "Made in France" Train at Place Viger Station.  
(2) The car illustrating "The Intellectual Development of France," put up by the "Ministère des Beaux Arts" of France, in which the public can see some fine paintings and pieces of sculpture.

A Made-in-France exhibition train is now touring Canada, over the Canadian Pacific Railway. It was opened at the C. P. R. Place Viger Station, Montreal, on August 29th, amongst those present being Premier Arthur Meighen, Mayor Martin of Montreal, and Senator C. P. Beaudet, who organized the bringing of the French exhibition goods to Canada, and the tour of the train throughout the Dominion.

The object of the train carrying French goods is to promote cordial, social, and commercial relations, reciprocally advantageous to both countries. The train consists of a baggage car, eight exhibition cars, a tourist, a diner, and two sleeping cars. The eight coaches of the train carry goods representative of:

- (1) The intellectual development of France;
- (2) Industries, commerce and tourism;
- (3) French styles;
- (4) Leather industries;
- (5) Chemical goods, perfumery;
- (6) Instruments of the various kinds, electrical goods, toys;
- (7) Agriculture, horticulture, food;
- (8) Jewellery, objects of art, dolls, watches.

But this list only gives an idea of the hundreds of things on exhibition.

In the tour of the Dominion, the train will travel a total of 7,000 miles.

During the four days which the train remained in Montreal, it was visited by thousands of interested persons. It was a huge success at the Toronto Fair and in attracting large numbers everywhere it goes through the country.

A member of the staff of the Canadian Government commercial intelligence service is travelling with the train, partly in order to study the results obtained from a business point of view. The information gleaned is to be used in fixing up the training of Canadian producers, which it is stated is to be sent later on to tour France and probably the United Kingdom and other European countries.

## COAL!

A car of clean Drumheller Nut to arrive. Order now and get delivery off car and clear of dust or slack. A splendid fuel for the range.

ON HAND:  
McKay Clover Bar, Black Gem Lump. A good clean furnace coal. No bone or slack.

SECOND HAND TRACTOR FOR SALE

Any reasonable offer considered.

E. J. RAMSEY

MASSEY-HARRIS AGENT.

#### THE COST OF LIVING

Special attention is directed in this issue of The News to the reduction that have been made in the cost of living during the past year. In many instances, the prices have declined gradually with the result that the people have not realized the extent of the reductions.

The prices of staple articles have figured largely in the general drop in values, whereas the fancy goods do not show the same results. Nowhere is this more marked than in the meats; the ordinary cuts are greatly reduced, while the fancy cuts are held at a high level by the operation of the

law of supply and demand. As an illustration of the high cost of living is still, to a large extent, the cost of high living. There is no disputing the fact that the luxuries of a very few years ago are regarded as the ordinary necessities today. It will be pleasant if everyone will be able to continue to maintain the standard of living that they have set for themselves in recent years. But it will be contrary to the history of the past, if such is the case.

Dr. Crumey pointed out in a recent address that there are three generations from shirt-sleeves to shirt-sleeves all through history. Extravagance invariably leads to poverty. Hard work leads to prosperity, and prosperity leads to extravagance. Statistics show that some of the commodities that fell too low are now rising in price again. If the 1921 dollar is worth 100 cents, the 1913 dollar is worth 153 cents in purchasing power. Yet the 1921 dollar will buy more coffee, hides, cattle and corn than the 1913 dollar would.

In the outcome it will matter not at all whether coffee, hides, cattle and corn come up, or the other commodities come down, but their coming up will be much less painful in the process of adjustment than the coming down. The level of prices, costs and wages will be reached sooner or later.

There can be only one opinion regarding the re-constitution which Premier Meighen has effected in his cabinet. The strength of the Government has been very materially increased thereby, and the inclusion of two such strong Westerners as H. H. Stevens of Vancouver, and R. B. Bennett of Calgary, will give great satisfaction to this part of the Dominion. Other notable additions to the fighting force of the administration, which will have a marked effect on the results of the campaign are Dr. Edwards, of Prince Edward Island, and Mr. J. G. Maclean. The former, it may be noted in passing, stands high in Orange circles, while the latter is a representative of the Irish Catholic element, and a man held in high respect by all classes. The new cabinet will be one of more than average ability, and the Prime Minister is to be congratulated upon drawing around him such a fine aggregation of Canadian statesmanship.

Who shall I vote for? Canadian Finance is an independent, non-political journal, but it is a supporter of one political party. It cannot be confined within the limits of any one political creed or platform, many "Canadians" are of the opinion that the choice we would support the man who places his country's welfare before his party's interests, which he belongs, in preference to the man who places his party before anything else. An honest, well-balanced Canadian, who is a Canadian first and a politician afterward, will not do much harm to the country, whether he belongs to the Liberal, Conservative, Labor, or Farmer party, and it is certain that such a man would do much good.

In the forthcoming Federal elections we cannot give too much attention to this question of measuring the capacity of such candidates as a man with principles which should be possessed by all Canadians. A man who does not measure up to the highest standards as a citizen, is not fit to represent any section of the Canadian people at Ottawa. Surely

## GIGANTIC PLAN TO-IRRIGATE VAST AREAS IN ALBERTA

Enthusiastic Meeting of Farmers of  
South Central Portion of Province  
Consider the Scheme.

### WM. PEARCE OUTLINES PLANS FOR THE PROJECT

(By Wm. Irvine)

Hanna, Alberta, Oct. 6.—A gigantic irrigation scheme, involving 15 million acres of land in the dry belt of Alberta and Saskatchewan between the North and South Saskatchewan rivers and the Battle and Red Deer rivers, was proposed by Mr. William Pearce and accepted as a feasible undertaking by a large convention of the South Central Portion of the League held at Pandora on October 3.

There were approximately 200 delegates present, coming from a hundred miles radius and including representatives of business, banking and boards of trade, etc.

A number of delegates drove by car from Hanna, some sixty miles north of Pandora, among whom were Col. B. E. Eaton, Mr. J. H. Stephens, president of the board of trade; Mr. R. G. Fletcher, lumber merchant; Mr. W. E. Dugdale, manager of the Union Bank; Mr. A. Lauris, manager of the Canadian Bank of Commerce; Mr. A. Johnson, druggist; Mr. H. G. McCrear, editor of the Hanna Herald, and others.

The convention was opened by Mr. Wm. Pearce, president of the league, and was addressed by Mr. Wm. Pearce of Calgary, Mr. E. F. Purcell of Brooks, Mr. James Stephens of Hanna, Mr. McCrear, Rev. Crookshanks, Colonel Eaton and Mr. Foster, M.L.A.

Mr. Pearce, who was the chief speaker, having been for many years interested in the proposed project and having been identified with all the irrigation schemes in Alberta, was shown by comparison the value of irrigation, traced the route of the Saskatchewan river, twenty miles north of Rocky Mountain House, through the drainage of Clearwater, taken from there into the drainage of the Red Deer river, where a dam would be built. From here a "Y" of water will be carried, according to the tentative plan from Mr. Pearce, into the Wolf creek-Battle river drainage, and taken from there at Ponoka and held in Buffalo Lake, which is to be raised twenty feet and used as a reservoir. From this point Mr. Pearce traced the probable course east and south, crossing the Red Deer railway branch into the Sounder creek drainage and thence south of west, following a contour of 2500 feet elevation.

### IN FIVE YEARS

Mr. Pearce stated that he believed the project, if properly financed, could be completed economically in five years; that it was an interprovincial undertaking between Saskatchewan and Alberta, and must be backed by the dominion government; that there was not a sufficient supply of water to irrigate fifteen million acres, but that as the scheme developed other streams could be taken in, such as the McLeod and Pembina rivers, and the North and South Saskatchewan; that the reservoir as estimated would contain 800,000 acre feet; that sufficient details had not been collected to enable him to estimate the cost, but that he was in a position to say that it would be a small cost per acre, and that the dominion government survey had proceeded on the basis of his statement that this irrigation scheme is physically and economically practical.

Mr. Pearce used maps and blue prints, and many of the audience came to the front of the hall during the question period to examine these maps in detail. Many interesting questions were asked and very fully answered by the speaker.

### NO DOUBT ABOUT NEED

Mr. E. F. Purcell of Brooks was the next speaker. He pointed out that there was no doubt about the need for irrigation, nor was there any doubt about the value of irrigation. He stated that the need for irrigation was increasing, not about the feasibility of the project. The great thing, was, where is the money to come from? He concluded that it was an undertaking for the dominion government and urged that everything possible be done to induce the government to take the matter up seriously.

### HANNA GREATLY INTERESTED

James Stephens, president of the Hanna board of trade, also gave an address. He told of the visit of the board of trade to the Bassano and Brooks irrigated districts, and how they had all been convinced of its value. He promised the strongest support to the movement from the board of trade and citizens of Hanna.

Mr. McCrear, editor of the Hanna Herald, also confirmed the faith of the townspeople in the irrigation scheme and promised their co-operation. Rev. Crookshanks, Colonel Eaton and Mr. Foster all expressed their faith in the scheme and their readiness to help.

### RESOLUTIONS PASSED

The following resolutions were passed unanimously:

"Whereas, that part of Alberta lying between the Goose Lake line of Meeting creek and the Red Deer river is in urgent need of irrigation, and

"Whereas, the dominion government is at present engaged in making a survey with a view of ascertaining the economic possibility of irrigating this district.

"Therefore, be it resolved, that this meeting of the South Central Portion of the League held at Pandora, October 3, 1921, urge the dominion government to complete this survey as speedily as possible and make public the results to the people in the district concerned."

### BROADEN THE SCHEME

"Whereas, the league, as at present constituted, is local in character and, whereas, the scheme proposed is very wide, requiring the active interest of the people throughout the whole area affected,

"Therefore, we suggest that the present board be enlarged to include the interested representatives from the whole district."

The convention was anxious to show appreciation of the willing and persistent efforts of Mr. Pearce on behalf of irrigation and decided to change the name of the league to "The William Pearce Irrigation Pro-

ject," in spite of protest from Mr. Pearce.

"Whereas this meeting recognizes the great debt the province of Alberta owes to the untiring efforts of Mr. Pearce in promoting irrigation, and especially the personal interest he has taken in this particular proposition, we hereby decree that the name of this organization be changed to: 'The William Pearce Irrigation Project.'"

Another resolution dealing with organization was passed:

"Resolved that the executive of this organization approach the central office of the U. F. A. with a view to securing from them mailing of all the secretaries of the locals in the area interested in this project, and that the co-operation of the loan companies, railways, boards of trade, all financial interests and the governments be solicited."

### LEAGUE REORGANIZED

Before the convention closed the league, which has been in existence for three years, was reorganized. Mr. Wm. Pearce was re-elected president, Col. Eaton and Mr. Purcell were elected first and second vice-presidents respectively.

Provision was made for a strong executive committee to include representatives from the various boards of trade and municipal councils in the community.

Each member of the league pays one dollar per year to help finance the organization work, and to push the scheme with vigor to a successful issue. There was great interest shown throughout the convention proceedings, and it is not too much to hope for an extensive irrigation project in operation in the near future. The convention closed at 7 p.m.

W. C. ...

The regular monthly meeting of the W.C.T.U. was held in the Presbyterian church hall, September 30th. A very interesting talk on the home was given by Mrs. McCrear, who was the guest of honor. (This is the true nature of home; it is the place of peace and comfort, not only from injury, but from all terror, doubt and division; and wherever a true wife comes from home is always found here.)

The stars only may be over her head. The glow from the night-gold gleams the only fire at her foot, but home is yet wherever she is, and for a noble woman it stretches far round her better than called with order of painted with vermilion, shedding its light light for those who else were in the darkness. A discussion followed, at which a motion was made and seconded:

Resolved that we, as mothers, try in every way to enter into the life and interest of our children along educational lines.

Mrs. Patterson rendered a solo, "Crossing the Bar," which was appreciated.

### PROGRAMME FOR 1921-1922:

September—The Home—Mrs. McCrear.

October—Provincial Convention Report—Delegates.

November—Evangelistic—Mrs. McCrear.

December—Scientific Temperance—Mrs. Matheson.

January—Lumber Camps and Mines—Mrs. Banerman.

February—Mental Contest.

March—Fruit, Flowers and Delicacies—Mrs. Stanway, Miss High.

April—Legislation and Petition—Mrs. McCrear.

May—Press—Mrs. Trimble and Mrs. Pyle.

August—Annual Report.

FINANCIAL STATEMENT, 1920-21

Credit—Members' dues \$38.00

Offering at February and July meetings 8.35

Am'ts. collected for Public Reports (ads.) 18.50

Proposed for bazaar and tea 69.43

Donation from Mrs. Dodman and Mrs. Banerman 5.60

Balance from 1920-21 113.85

Total 113.85

Expenditure—House plant for sick 1.35

Ad. in local press for bazaar and tea 1.70

Dist. and Prov. dues for 36 members 18.00

Pledge for Prop. work 25.00

Frances B. Willard Memorial Fund 2.35

Soldiers' Memorial at Red Deer 30.00

H. H. Hull, Edmonton Moral Reform League 15.00

White Ribbon of flower dept. 50

Travellers' Aid Directory 25

## THE HORRORS OF INDIGESTION

Relieved by "Fruit-a-lives"  
The Fruit Medicine

Indigestion, Weak Digestion or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.

Those who suffer with Indigestion, almost invariably are troubled with flatulence, belching of the heart, Stomach and nervousness.

"Fruit-a-lives" will always relieve Indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct constipation, which usually accompanies Indigestion.

600 a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

## IDLE THOUGHTS OF A BUSY FARMER

The home of Duncan Layton, who lives west of Lockhart, was thrown into a state of consternation on Monday evening when the baby, aged about two years, could not be found. The telephone system has not advanced into the backwoods as far as Duncan's residence, but in spite of this handicap some thirty men were out on the hunt by night. Jim Jeffrey found the youngster about 6 a.m. next morning. She was fast asleep and embracing the family kitten. When found she was over a mile from home. Any one who knows the roughness of the country, and the amount of timber thereabouts, will realize the miraculous escape.

With the small charges now levied by the railroad companies, we do not wonder that they oppose any freight rate reductions. We wonder how they can pay wages much less dividends. One of our neighbors recently ordered from Calgary some fire brick to line his stove. The cost of the brick in Calgary was \$2.50, and the C.P.R. only charged to bring it from there to Lacombe \$5.02. Our friend walked in to Lacombe and carried the brick home. He said he made good wages on what the P.N.V. would have charged to bring it to Bentley.

The other day we told Scottie Robertson we had read that a female salmon produced about 3,000 eggs in a year. For Heaven's sake, replied Scottie, don't mention that round the house. Some of the wife's hens might overhear you and get discouraged.

We notice the McConkie King gas works are now in operation. This gas could be used for illumination instead of just leaving them in the dark, the public would see the object of his campaign.

Football should be popular in Alberta this winter; it has so much kick.

Lloyd George is willing to turn the policing power over to the Irish. New York and Chicago did that years ago.

## MEIGHEN DEFENDS HIGH TARIFF IN FIGHTING SPEECH

Halifax, October 6.—In a fighting speech, a speech which commanded the attention of more than 3,000 people in the Mayflower rink here last night, Right Hon. Arthur Meighen again expressed his able and able opposition to the policy of the Liberal and Progressive groups in Canada.

Again the prime minister, emphasizing his attitude toward the protective policy for Canada, declaring that the destruction of tariff walls in the present time would prove of the greatest injury to the Dominion.

The premier's speech emphasized the importance of the protective policy in its relations to the maritime provinces ports. He declared that reports should find their outlet from the ports of eastern Canada. In order to do this they must move from west to east and not from north to south. They must be carried through Canada and not through the United States.

P. B. McCurdy, minister of public works, said the indications were that the Liberals would not even hold the 11 seats west of the Ottawa river, which they at present held.

Hon. F. B. McCurdy Thinks Liberals Can't Hold 11 Seats West of Ottawa River.

## U.F.A. PRESIDENT CONCERNED OVER PRICE OF WHEAT

Declares This is Only Farm Product in Which Any Profit is Left

H. W. Wood, president of the United Farmers of Alberta, is much concerned with the slump that has taken place in the price of "straw" wheat. "Straw" wheat is what is hauled to the elevator by farmers in wagon loads. The present price is about 35 cents a bushel, compared with \$1.75 exactly 15 months ago.

"What," said the president of the U.F.A., in the course of an interview Wednesday, "was the only farm product that there was any profit left; now that has disappeared entirely. That means that the purchasing power of farmers has been completely destroyed."

"The farmers of Canada," he continued, "represent approximately half of the consumers. What is going to be the result? The only solution I can see in this situation is that the sooner the collapse comes the sooner we will begin to rebuild, that's all."

"I asked what he meant by the word 'collapse,' Mr. Wood said he referred to economic conditions and a readjustment of the market where producers could sell to purchasers.

"If the farmers cannot raise prices

up to a level where they can continue to buy the prices of articles to consumers will have to come down within reach of the farmers," he said. "In other words the producer and consumer are farther apart today than ever before; they have got to get closer together before trade can again become normal."

If unreasonably high prices to the consumer cannot be brought down within the farmer's reach, then we are very close to the collapse I have mentioned," he said.

Referring to the cattle situation, Mr. Wood stated that in 1919 he sold beef cheaper than it was selling to day, but that he could buy more for one dollar than he could now buy for three dollars.

## MR. PARSONS DISMISSED

### On Charge of Attempting to Deceive Penhold U.F.A. Co-Operative Directors

Mr. P. P. Parsons, the former manager of the Penhold U.F.A. Co-operative store, was dismissed by Mr. H. P. Lawrence, police magistrate, on Wednesday on the charge that he had made an account of the stock of the store, which was in the hands of the Co-operative store, which he knew to be false in material parts with the intent to deceive the shareholders. Mr. Parsons was arrested on July 8, and released on bail. On September 6 a further charge was laid of making entries in the trading account of the Co-operative store, which he knew to be false and with intent to deceive the shareholders. The case was heard on September 6, September 13, October 4 and October 5, Mr. Quinn appearing for the Crown and Mr. Payne for the accused. A great deal of evidence was taken of directors, staff, auditors, etc., bearing on the books and accounts.

The business apparently had not been prospering lately, especially in the winter of 1920-1921, and towards the spring of 1921. Two of the shareholders

took stock in January, 1921, and another stockholder by another director and the manager in April brought things out much about the same amount, though the stocktaking of the Canadian Credit Men's Trust Association not very long after reduced the amount of stock materially. Mr. Parsons made an audit in January, 1921, and Mr. Williams, the C.C.M.T.A. auditor from Calgary, did not lay much stress on either audit; it was impossible to get a complete audit. Mr. Williams said, because the books were incomplete. The auditors said that Mr. Parsons had given such assistance as they asked for in their audits, and placed everything at their disposal.

The chief complaint was that the merchandise on hand on December 31, 1920, had been carried forward at \$24,000 instead of \$15,000, the real amount. This, Mr. Parsons explained, was due to a change in the bookkeeping and the substitution of two pages; the merchandise had been carried forward at the right amount in the discarded pages, but was wrongly set down in the new sheets. As to changes having been made in the stocktaking books, the defendant said these were corrections, was not in the store. The Magistrate's reasons for discharging the accused were in substance as follows:

"Subject to correction, I take it the point I have to keep before myself

is whether the accused, in his capacity as manager, permitted statements to be made and recorded which he knew to be false, with an intention to defraud or deceive. In my opinion, 'Great stress has been laid by the chief witness for the prosecution on the fact that four, to be sold on credit, was entered in the common book, instead of being shown (as probably it should have been) in a separate account. Granting that such was the error, it is not, in my opinion, likely to occur with any one not an expert bookkeeper, and it is too transparent an irregularity to be classed as fraudulent.

"Next I deal with the proof of a number of totals and entries having been changed in the stocktaking books and with the statement, not proof, that these changes were his own. I find also that in the stocktaking the quantities of each article were called by the accused to those making the inventory. To any one intending to defraud it would have been easier and safer to falsify quantities than to tamper with the books, and in no instance has the prosecution shown that the quantities of goods as finally entered in the stocktaking did not at the time exist.

"I find, therefore, on the grounds stated, dismiss the case. We have had in this case an illustration of the far-reaching and a business imperfectly understood and probably of the employment of labor to conduct it as cheap as it is to conduct it as efficient."

## ALBERTA NATURAL HISTORY SOCIETY

Two new members joined the Natural History Society at its first meeting of the season on Friday night. The Society expects to put in a good winter's work, and get things in shape for a good start.

President C. H. Snell was in the chair, and after the minutes and correspondence, called upon Mrs. Henry George for her report of the summer outing at Sylvan Lake. This was followed by a discussion of some of the plants found, especially mushrooms. Mrs. Powell is the Society's mushroom expert, and was present with a bag of dried specimens. She said she had found eighteen edible varieties and one poisonous.

Mr. Geo. L. Cook, Bashaw, who had his very valuable collection of eggs destroyed by fire, wrote thanking Mrs. Farnley for helping him to secure a permit to collect, with a view to starting a new collection.

Professor Wm. Rowan is to be asked to address the annual meeting to be held probably late in November. Mr. Kenneth Bowman, an Edmonton member, is to be asked to address the Society during one of his business visits to Red Deer. He is auditor for the city. Mr. Brewster has been asked and consented to feature nature films at the season.

The next meeting of the Society will be on the last Friday in October, when the programme being a paper by Mr. W. H. Harris on "Myths, Superstitions and Popular Fallacies on Natural History Subjects."

## FINED UNDER THE LIQUOR ACT

Mr. O. M. Forhan, of the Standard Drug Co., was charged by Chief Anderson before Mr. Lawrence, police magistrate, on Thursday afternoon with selling liquor other than that procured from the government holder. Mr. Forhan pleaded guilty and was fined \$200 and costs.

## LIBERALS INTEND TO KEEP TARIFF, DECLARES LEADER

But There is Need of Revision, King Tells Amherst Audience.

Amherst, N.S., October 6.—Dealing with Premier Meighen's manifesto at a meeting of six thousand people here tonight, Hon. W. W. Mackenzie King, Liberal leader, declared that the prime minister began by claiming for his government the credit of conducting the war, and ended by declaring that his government had extended the franchise to women voters. But, the Liberal leader asserted, there was no one who believed that the government of Premier Meighen had carried on the war, and no one who did not know that Mr. Meighen and his friends had refused the vote to three-quarters of the women of Canada.

In 1917, Sir Robert Borden, Mr. Meighen and others had appealed for support in winning the war. They asked the people to forget past government records and unite to win the war. Then there was to be a return to old parties.

"The government of 1917 was a coalition to win the war," declared Mr. King. "Will anyone say that this government is a win-the-war coalition?"

PRECEDENTS CRUSHED  
Precedents and customs had been crushed aside by Mr. Meighen, the Liberal leader asserted. The most sacred of these was the right of parliament to scrutinize all public expenditures.

Government was carried on today, controlled by political autocrats and big business interests. "Till the constitution is broken (and the people now have their opportunity) you cannot have the proper government," Mr. King declared.

Mr. Meighen talks of free trade, the Liberal leader added. "No man in Canada could talk of free trade as the tariff policy in Canada today."

"We must keep a tariff, and so far as the Liberal party is concerned, we intend to keep a tariff. But there is need of tariff revision," the Liberal leader concluded.

## ROBBERS CAPTURED

Allan's hardware store, Bowden; W. Fenderson's store and the Kromer Hardware, Innisfail; Stewart Brothers, the Co-operative store at Penhold; and Hays general store and the harness store at Lacombe were broken into this week and more or less stuff taken from each place. Inspector Fisher's men, and arrested the perpetrators of the robberies near Morningside. They are two lads from Bowden, who were out on a Jesse James stunt, breaking into a store at Bassano to start with. They were brought to Red Deer on Thursday afternoon by Inspector Fisher and Detective Scott.

## LESLIEVILLE

Since last we wrote any news items, our progressive burg has made magnificent strides in the direction of being one of the most up-to-date hamlets of its size to be found anywhere along the Brasau line.

The long expected, much discussed (and sometimes doubted) Community Hall is now almost an established fact. The bottom ends of those tall slender two-by-four posts stand like two long lines of soldiers at attention) rest upon the sills which surmount a good substantial cement foundation. Those neat bundles of B.C. fir will form the floor over which in the glad-some nights to come the youth and beauty of our district will trip the light fantastic toe. That apartment over the entrance will accommodate the moving picture machine. Those two little rooms on either side of the entrance will serve as ladies' and gentlemen's cloak rooms. That platform which stands two feet eight inches above the floor will have a six foot by six dressing room at either end, and there will be about two hundred square feet of platform space. The auditorium will seat about a thousand people. Those spruce boards running corner-wise will (as you will before) be covered with a nice fir floor, and that big stack of shingles will be used on the roof. That cement lining will be used as a kitchen and store room; it is under the platform and part of the auditorium. To Mr. Cordland, Mr.

## Foot Saved in 4 Days!

"Nothing but Zam-Buk could have done it," says Mrs. A. Berryman, 100, John Street, North, Hamilton, in describing how her right foot, crushed by a wagon wheel, was healed. "The flesh was terribly bruised, blackened and inflamed, and I pained away with pain. When it was quite impossible for me to move about, my husband's mother got me to try Zam-Buk. It was surprising! Within TWO DAYS all swelling and inflammation had disappeared and pain was banished. In FOUR DAYS, through this timely use of Zam-Buk, I could get about as usual; the injured foot was thoroughly healed."

Zam-Buk is the powerful antiseptic healer which quickly frees the skin of corruption and disease and grows new healthy tissue. No common ointment or salve can do this. It is sold in 5¢ and 10¢ boxes. Get a box to-day! 50¢. all dealers or FREE SAMPLE for 1¢ postage from Zam-Buk Co., Toronto.

**ZAM-BUK**  
For Healing!

Gore and Mr. Moore is due all praise and honor for the splendid quick advance that has been made with the work. Get your dancing pumps in readiness for some time in November. Mr. A. N. McKinnon has had a splendid addition put on to his residence.

Mr. W. Glascoope, of Horburg, (a former resident here) was visiting here during the past week. The sale of town lots conducted by Mr. Herbert Gray, M.A.A. in the ice house, took place last Friday evening. A small but interested crowd, Mr. James Card, Mrs. Hopkins, Mr. Roddie and Mr. Cordland were among those who purchased. A dance was afterwards held.

The S.E. quarter of 22-25-2, W. 6th, is said to have changed hands. Threshing operations now well advanced, have been carried out during ideal weather.

Baled hay and oats are being loaded up for different points.

The Mercantile Co. unloaded a car of flour last week.

## What Kind of Tariff Do You Prefer?

DURING the next few weeks the Dominion of Canada will be in the midst of one of the most exciting and important general elections in its history. For the first time three great parties will participate in the struggle, with the tariff as the paramount issue.

The whole country, and particularly the farmers, will watch with profound interest the tariff discussion between Premier Meighen, Mr. Crerar and Mr. Macenzie King—the three party leaders.

At no time in the history of the Dominion has it been more vitally necessary for every elector to be thoroughly posted on the issues of the day. Readers of the

Upper picture shows the Golf Club house at St. Andrew's by the Sea.  
Lower picture—On the Golf Links at St. Andrew's by the Sea. There are innumerable picturesque scenes like this.

Golf is now universally recognized as an ideal game for men who lead sedentary lives. It encourages walking, the most health-giving of all exercises; it provides a fascinating recreation, it employs muscles that would otherwise be rarely exercised, and it is played under conditions that conduce to the highest possible enjoyment. The extraordinary hold this old Scottish pastime has taken on this continent is phenomenal, and it has happened within the present century. Only half a century ago it was mostly confined to Scotland, where it had been played for centuries. Then the unexpected happened. From being derived for amusement for elderly people, it rapidly jumped into a commanding place as its qualities and possibilities became better and more widely known and appreciated. Today links are numbered by the thousand and the devotees find in golf a per-

fect source of interest and enthusiasm. Golf is enjoyable anywhere, but there is an added charm to the enjoyment when the game is played at St. Andrew's by the Sea, New Brunswick. The golf links are beautifully situated overlooking the sea, and partly enveloped by woods of tall pine trees. But from any part of the links the sea is always in view. There are two courses, one of 9 holes and one of 18 holes. Both are fit for the play of the greatest experts of the game, and they are kept in the best possible condition. The links are adjacent to the magnificent Algonquin Hotel. A sufficient recommendation for links and golf is to say that both are owned and conducted by the Canadian Pacific Railway. The St. Andrew's course was selected this year for the Annual Tournament of the Canadian Senior Golf Association, and with the last effort.

---

my tradition, by the sense of common purpose, by the sense of common ideals, the Dominion of Canada aspires to one destiny and one only—destiny than which there is no nobler nationhood within the British Empire. I am convinced there is no single thing more vital than the best interests of the Empire than that the British Empire as at present constituted should be maintained. We enjoy the finest autonomy and that autonomy is not challenged and never shall be challenged. For the maintenance of the British Empire as a league of free nations, the best interests of the common burdens that all must share, but those burdens are light and the advantages are great.

"But a strong and a more menacing menace has arisen. For some years past the Canadian press has been busy on the prairies of the West and, later through selected parts of Eastern Canada, a party backed by a costly and persistent propaganda, the purpose of which is to reverse the tariff policy of this country. This movement is headed by the Hon. J. G. Macfarlane, and H. W. Wood, has also set down its immediate tariff demands in black and white. They need not be here repeated. The resolution of the Liberal convention quoted above substantially embodied, indeed was a direct quote of the platform of the Wood-Cromar party. The latter, however, demand also the free entry

"Canadian farmers would soon find themselves with the reduction of demand for their products, and the loss of the export market, but at the same time they would be the source of the greater proportion of our revenues, with the result that the burden of taxation would be thrown upon them to a far more serious degree than it would be to the rest of the country. It is more than time that we should come to settle this issue, and the welfare of one and all depends upon its being settled right.

"There are other subjects of importance, and these have on several occasions been discussed and will again be discussed at the representative conference and all my mention has been a

The Hilldown Valley Women's Institute will meet on Thursday, the 13th of October, at the home of Mrs. Jack Jensen, Mrs. J. J. will demonstrate her vinegar bees.

Keep the date open for St. Luke's W.A. annual Thanksgiving dinner, to be held on October 24 in the Alexandra hall from 6 to 8 o'clock. Tickets 50 cents, children under 12, 25 cents.

M. M. Cook, late of Bashaw, is now in charge of the U.G.G. elevator, succeeding L. A. Parry, who has taken up business for himself. In addition to his other good qualities, Mr. Cook is an experienced violinist and will be heartily welcomed to the city. He had four years' experience in Calgary with the Ford and Trainor orchestras and also had an orchestra of his own for some time. Mrs. Cook will move to Red Deer as soon as they can secure a house.

## "REX" CALENDAR

Tonight (Wed.) and Thursday—Alendale and Arbutus Co. "The Miracle Man."

Friday and Saturday—"Paid in Advance."

Monday and Tuesday—"The Affairs of Anstot."

There was a special meeting of the City Council in the city hall on Wednesday evening. There were present: Mayor Collison in the chair, Commissioner Stephenson, Aldermen Stone, Broughton, Turnbull, Best and Gooday.

The meeting was called primarily to deal with the application of L. A. Parry for privileges in connection with opening up of his business in the old Sash and Door Factory, opposite the Red Deer Iron Works.

The Commissioner read Mr. Parry's letter, which made two separate requests. The first was for permission to store oils and greases, other than gasoline and coal oil, in the main building, and for the use of the shed on the same property for storage of the gasoline and oil as a temporary arrangement until the British-American Oil Co. for which Mr. Parry is acting as agent, can get real connection to the site where they propose to erect their tank on the C.N.R.

The second request was for permission to erect a shed alongside the main building for the protection of teams when loading and unloading in inclement weather.

The report of the Fire Chief was read, in which he recommended that the application be granted. The buildings are well isolated, the shed is located over 100 feet from the main building and is at least 75 feet from any other building.

On motion of Ald. Stone and Best, the following resolution was passed:

That L. A. Parry, agent for the British-American Oil Co., be granted permission to carry oils and greases, except coal oil, gasoline, etc., in the old sash and door factory on 2nd St. N. on lots 18 to 25, Block 16, and that he be granted permission to store coal oil and gasoline in the shed at the rear of this property, this permission to be temporary, pending the completion of the C.N.R. Ry. and the erection of storage tanks by the Oil Co. as per application dated September 28, 1921.

The other resolution was also carried on motion of Ald. Best and Gooday, as follows:

That permission be granted Mr. Parry to build a temporary lean-to on the old sash and door factory, to be used as a drive shed, said shed to remain during the pleasure of the Council.

The Council were of the opinion that they wished to give Mr. Parry any reasonable concession in this effort to establish an industry and a distributing agency here.

A letter from Latimer & Botterill, in connection with the payment of taxes on property owned by them, was left over till the regular meeting that the solicitors' opinion might be secured. This firm are making every effort to pay their taxes and have paid large sums already this year. The Council of time, in appreciation of their honest efforts to pay.

Arrangements were made for dividing the city into districts for the Aldermanic Tax-collected Drive this week. The city must get the taxes collected somehow, and the Aldermen are out to get them if they can.

**GREAT BOON FOR SMALL CAR OWNERS**

Dunlop Rubber Company's New Straight Wall 31 x 3 3/4 Cord Tire.

Users of cars taking 30 x 3 3/4 rims have available a Straight Wall type of rim, which allows the use of a 31 x 3 3/4 Straight Wall Cord Tire, recently developed by the Dunlop Tire & Rubber Goods Co. Limited.

This 31 x 3 3/4 Cord Tire, as previously stated, is made to fit the new Straight Wall rim in 30 x 3 3/4 size, and its introduction at this time is particularly interesting because the 31 x 3 3/4 Straight Wall Cord Tire represents an extension of the Straight Wall principle in building to the smallest size tire.

This makes it possible for owners of "Brisco," "Chevrolet," "Ford," "Gray," "Dodge," "Maxwell," or "Overland" cars to use the new Straight Wall Tire—if they so wish—by converting their present Clincher Rims into Straight Wall.

Rim makers are now supplying 30 x 3 3/4 Straight Wall Rims to change with 30 x 3 3/4 Clincher Disc mountable Rims or Solid type 30 x 3 3/4 Clincher Rims.

The new 30 x 3 3/4 Straight Wall rim is exactly the same as the 32 x 3 3/4 Straight Wall rim, except that it is twenty-three inches in diameter instead of twenty-five.

"31 x 3 3/4 Straight Wall" introduces a new size in Cord Tires, one that undoubtedly will be very popular because of the records it will set for tremendous mileage.

One car make has already adopted the new Dunlop Cord Tire for equipment purposes, and the prospects are that others will follow the example immediately.

31 x 3 3/4 Straight Wall Cord is supplied in both "Ribbed" and the well-known "Traction" tread designs.

## NOTICE

As I have disposed of my Grocery business to Mr. J. Lowes, it is essential that all accounts due me be paid at the earliest possible date. I shall therefore esteem the favour of a prompt settlement of all bills, which can be made to myself or at the store.

## CITY OF RED DEER—FIRE PREVENTION

Citizens of Red Deer are Requested to Carry Out the Following Suggestions This Week.

(1) Have all chimneys and stove pipes cleaned, particularly pipes leading from furnaces.

(2) Clean up all rubbish and refuse from cellars, attics, etc., and see that no inflammable material is left near stoves or furnaces.

(3) Provide a receptacle for ashes and do not allow ashes to be deposited near any wooden fences, outbuildings, etc.

(4) Do not, at any time, start fires with coal oil. This is a dangerous habit and has caused great loss to property and life.

(5) Makes sure all furnaces, stoves, etc. are shut up before leaving the house.

(6) Provide metal protectors for backs of and underneath stoves, heaters, etc.

A. TAYLOR, Fire Chief.
